Comments: The UAA survey was conducted in October 2007 and no WBCR was observed. No interviews were conducted during the survey. Many instances of human use are noted in both the 2005 and 2007 UAAs, including fishing tackle, picnic table, footpath and foot bridge.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream met the maximum depth criterion at 1 out of 4 sites evaluated. Due to meeting the maximum depth criterion, the committee recommends the WBCR use designation be retained. Due to evidence of secondary contact (fishing tackle, picnic table, etc.), the committee recommends Secondary Contact Recreation be assigned.
